## Monthly Performance as at 31 March 2025

### for the AFLPA & AFL Industry Superannuation Plan

The table below sets out the returns for the AFLPA & AFL Industry Superannuation Plan investment options.

Returns are calculated from changes in the unit price (or crediting rate declared) over the periods shown. They are after the deduction of investment fees, tax, administration fees and costs (excluding the dollar based member fee, fees paid from the super fund's assets and any member activity related fees and costs).

## Footnotes

1. Returns are annualised if the inception date was over 12 months before the report date. Otherwise, they are not annualised.
2. Returns are for periods less than 1 year and are not annualised.

## Important Notes

The returns assume a sum of money is invested at the beginning of the time period and neither drawn upon nor added to throughout that period. Your actual rate of return of your account will vary from those displayed depending on the timing of contributions, switches or withdrawals that you have made over the period and any fees charged and rebates credited directly to your account.

MySuper returns are not equivalent to those shown in the MySuper dashboard which includes a deduction for the member fee for a member with an account balance of \$50,000 throughout the period.

Some members may qualify for discounted administration fees, which would effectively increase the returns shown above. This discount is not applicable to Super Cash, Term Deposits or MySuper, and is subject to change. Please refer to your Plan Summary for further details.

Warning: You should exercise caution in comparing investment performance across investment options or superannuation funds based on past performance because past performance is not a reliable indicator of future performance. There are many factors that can cause any performance comparisons to be inaccurate, including:

- Each option has a defined strategy and objective. Asset allocations differ between options. The level of risk can vary depending on the assets that make up the strategy. Typically growth assets can be more volatile than defensive assets, as an example, Australian Equities tend to be more volatile than Australian Bonds.
- The returns you receive in your account may vary substantially to the past returns shown, due to the timing of your contributions as well as the timing and amount of any deductions or switches from your account (including any fees not incorporated into the unit price) and also where you have been transferred from one option to another by the trustee.

## What you need to know

This report is issued by N.M. Superannuation Proprietary Limited ABN 31 008 428 322, AFSL No. 234654, RSE Licence No. L0002523 (NM Super), the trustee of the AMP Super Fund ABN 78 421 957 449. NM Super is part of the AMP group (AMP). Other than NM Super, no other company in the AMP group or any of the investment managers of the options are responsible for any statements or representations made in this report.

No other company in the AMP group or any of the investment managers of the investment options guarantees the performance of NM Super's obligations to members nor assumes any liability to members in connection with this product, unless expressly stated in the Product Disclosure Statement (PDS).

None of NM Super, any other company in the AMP group or any of the investment managers of the options guarantees the performance of the options or any particular rate of return. The repayment of capital is not guaranteed, unless expressly stated. Investments in this product are not deposits or liabilities of NM Super or any other company in the AMP group.

The information in this report is of a general nature only, not taking into account any particular investor's objectives, financial situation or needs, and is based on information available as at the time of production. It is based on sources considered to be reliable. While every care has been taken in the preparation of this report, no representation or warranty is given in relation to the accuracy or completeness of any statement contained in it including, without limitation, any performance figures.

Past performance is not a reliable indicator of future performance. The value of investments may go up or down and you may not get back the amount you invested. Taxation issues are complex. Except where liability under any statute can't be excluded, AMP doesn't accept any liability for any resulting loss or damage to the reader or any other person. AMP companies receive fees and charges in relation to this product as set out in the applicable PDS. AMP employees and directors receive salaries, bonuses and other benefits from the AMP group. You can read our Financial Services Guide available at [amp.com.au/fsg](http://amp.com.au/fsg) for information about our services, including the fees and other benefits that AMP companies and their representatives may receive in relation to products and services it provides.
