What you need to know about this document:

1. A Target Market Determination (TMD) is required under section 994B of the Corporations Act 2001 (Cth).
2. This document is not a product disclosure statement and is not a summary of the product features, eligibility criteria, fees or terms and conditions for the product.
3. This document does not take into account any person's individual objectives, financial situation or needs.
4. Terms and conditions apply to the product. Persons interested in acquiring this product should carefully read the terms and conditions or call **1800 950 105** before making a decision about this product. Fees and charges may be payable and approval is subject to AMP Bank guidelines.

Product

This TMD applies to the AMP Bank Everyday Account.

Issuer

AMP Bank Limited ABN 15 081 596 009, AFSL and Australian credit licence 234517.

Product description

The AMP Bank Everyday Account is a digital-first transaction account that has no monthly account fees and allows customers easy access to their funds. Customers can also make and receive payments through payment facilities offered in connection with the account (including electronic transfers available through the AMP Bank app and Debit Mastercard®). There is no cheque facility or branch access, however customers can withdraw cash from an ATM (ATM fees may apply).

Target market for this product

Target market

This product is for customers who:

- want a digital-first transaction account with only mobile app access for personal use only;
- will deposit or pay funds into the account that they can draw against;
- want easy access to their funds;
- want the ability to make and receive payments frequently through one of the payment methods offered in connection with the account, which does not include making and receiving international payments to and from an international bank account; and
- want to operate an account in their own name, and not jointly, as a trustee or under a power of attorney.

Customers who seek this product are in a financial situation where:

- funds are available to perform the transactions using the account; and
- are able to pay any applicable fees as and when they're due.
