Market Review

During the June quarter, key news flow included Dexus announcing the acquisition of AMP's \$28bn domestic real estate and infrastructure platform. Goodman Group upgraded its full year earnings guidance to +23% and reported strong operating metrics and rental growth across all operating regions, with the Group's development workbook exceeding \$13bn across 89 projects. Strong trading conditions were reported across the retail sector, citing improving leasing outcomes, retail sales and rental cash collections. Conversely, residential developers Mirvac and Stockland both reported quarterly updates which saw a moderation in residential sales and settlements amid ongoing supply chain disruptions as well as bad weather.
