We've partnered with TAL as our default insurer. As one of Australia's leading life insurers, TAL protect five million Australians and their families. TAL provides contemporary insurance cover as well as innovative digital services, online claims processes and holistic health and wellbeing programs to help you stay healthy, and if you do become ill, to return to your best health and return to work.

Insurance cover for SignatureSuper is provided by TAL Life Limited (TAL) ABN 70 050 109 450 AFSL No. 237848

## Flexible investment options - Let us do the work for you

AMP MySuper Lifestages is designed to evolve and align with the changing stages of your life. It takes the hard work out of deciding how to invest your super, by offering a single investment option tailored for your age. When you're younger it seeks higher returns through growth assets such as shares. And then as you approach retirement, the mix shifts to more defensive assets like fixed interest to help reduce risk.

## ...or choose your own investment options

Set your own level of risk to match your goals and stage of life. Select from our range of 27 options—including single-sector and multi-sector investment options utilising active multi-manager or index style investing. We also offer cash and term deposits.

## Here's how MySuper Lifestages works

You can switch between investment options at any time—a list of available options can be found in your [Investment Guide](#). The performance of your super fund can make a big difference to your lifestyle when you retire. You can see how all of your investment options are performing by visiting [amp.com.au/performance](http://amp.com.au/performance)

## Competitive fees<sup>(i)(ii)</sup>

The administration and investments fees in your plan are summarised as follows. To understand all other fees and costs which may apply, such as transaction cost allowances, performance-based fees and insurance fees you should read your **welcome letter** in conjunction with the **fees and other costs** section of the **Product Disclosure Statement (PDS)**, **Member Guide** and **Investment Guide**.

		When you leave employment

<b>Administration Fee</b>		
	We cap our % based administration fee to the first \$500,000 in your account. If you have been a super member with SignatureSuper for at least 12 months, we will waive the % administration fee in a new pension account for the first six months.	
	<b>Fees not deducted from your account</b>	
	There are other administration costs paid by the super fund's assets. See the PDS for more details.	
<b>Investment Fee</b>		

(i) You may receive a tax deduction on your Superannuation fees and costs. For details refer to the Tax section of the PDS or Member guide.

(ii) For details on the Total Cost of Product refer to your Investment Guide.

## Automatic insurance

Insurance through super can help protect you and your family if something happens to you. Eligible\* members have access to the following insurance with our insurer TAL.

## How Lifestages cover works

Lifestages cover is based on your age. The amount and cost of your cover is generally lower when you're younger, then increases as you get older (and your need for cover increases), then reduces again as you approach retirement and typically have fewer financial responsibilities. For more information on Lifestages cover and how it's calculated - refer to page 4.

For more details about your levels or cost of insurance, please refer to your Welcome Letter in conjunction with the insurance section of the PDS and Insurance Guide. You can also log in to My AMP.

### How Lifestages cover is calculated

The cover amount applicable is based on the Lifestages cover curve. The table below also shows the amount of Death and TPD cover provided based on your age. A minimum cover of \$15,000 applies for both Death and TPD, which has been reflected in the graph below.

#### Example

John is an **employee member** of the XYZ plan. John is 29 years old, meaning he will be 30 years old on his next birthday. John has a **salary** of \$100,000.

The default cover for Death and TPD in John's plan is 5 units of Lifestages cover, which is:

- Death cover: \$150,000
- TPD cover: \$170,000

The default cover for IP in John's plan is:

- Up to \$6,250 per month (75% of \$100,000 divided by 12), and
- A superannuation contribution benefit of up to \$958 per month (11.5% x \$100,000 divided by 12).

**Please note:** This is an illustration only and should not be taken as the actual amount of default cover you'll receive. The age your death cover ends is age 70 but Lifestages cover is applicable to age 65, therefore you will receive \$15,000 death cover between age 66 and 70.

Lifestages cover				
Age next birthday	1 Unit Death (\$)	1 Unit TPD (\$)	5 Unit Death (\$)	5 Unit TPD (\$)
15 to 25	10,000	34,000	50,000	170,000

68	0	N/A	0	N/A
69	0	N/A	0	N/A
70	0	N/A	0	N/A

The table above shows the amount of Death and TPD (if applicable to your plan) you will receive based on your age.

**Note:** A minimum cover amount of \$15,000 always applies to your Death and TPD cover. This is not reflected in the table. For example if the age your Death cover ends is age 70, but Lifestages cover is applicable to age 65, then you will receive \$15,000 Death cover between age 66 and 70. TPD cover will cease at age 65.
