² Past performance is not a reliable indicator of future performance. The managed portfolio performance represents total return for the periods. Returns have been calculated using the time-weighted method, they assume distributions are reinvested and are after investment management fees and indirect costs. Total and growth returns include accrued distributions, while income return includes paid distributions only. Returns do not take into account tax payable. Individual client returns may vary based on the contributions, withdrawals, and timing differences within the managed portfolio

³ The benchmark is calculated based on the average performance from peers in the same multi sector category, as compiled and sourced from Morningstar Direct on 10 May 2021. Performance is as of 30 April 2021 based on approximately 208 funds within the category

Sustainable investment

The portfolio employs a responsible and sustainable framework for investing.

The underlying managed funds forming part of the managed portfolio have been selected on the likelihood of meeting their investment objectives and how the relevant fund manager integrates environmental, social and governance (ESG) considerations into their decision making. We invest in underlying managed funds that, based on the information provided by the relevant fund managers, avoid investing in companies with material involvement in activities we consider to have a negative impact on the environment or the community.

The assessment is centred around the following sustainability principles:

1. Transitioning to a low carbon economy.
2. Avoid material investments in thermal coal, tobacco, gambling, pornography and controversial weapons.
3. Encourage positive sustainable social and environmental outcomes for the community.

Assets are considered on a case-by-case basis, and we do not apply a particular weighting system or metrics when taking into account labour standards or environmental, social or ethical considerations. Other considerations in selecting an underlying fund include whether the relevant fund manager is a signatory to the United Nations Principles for Responsible Investment (UNIPRI) or is certified by Responsible Investment Association Australasia (RIAA).

Currently, we do not take ESG considerations into account in selecting Cash assets. The underlying funds are reviewed on an on-going basis, however on an annual basis we reconfirm whether the underlying fund continues to be consistent with our sustainability principles. If we form that view (based on information provided by the relevant underlying fund manager) that the underlying fund no longer meets our selection criteria from either a sustainable or investment perspective, we will generally take steps to remove and replace that underlying investment as soon as practicable.

⁵ A significant percentage of assets comprising this portfolio are only available through the managed portfolios and therefore can't be transferred out of the MyNorth Managed Portfolio Scheme. For more information relating to restrictions that may apply to asset transfers, refer to the 'Transferring assets in and out of your Portfolio' in Part 1 of the MyNorth Managed Portfolios PDS.
