

# How to send money to a PayID?

## Mobile User Guide

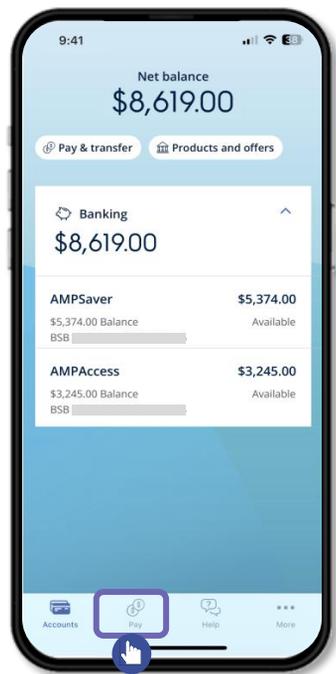

You can now use My AMP to send money in near real-time to an individual or a business using their PayID. This may be their phone number (mobile or landline), email address, ABN or Organisation ID, depending on who they bank with.

Please note that when initiating a new PayID transaction, you'll be required to add a new PayID payee, before being prompted to complete your payment.

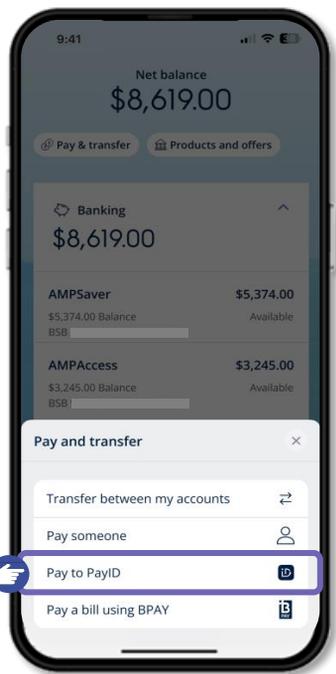

**1** Log into the **My AMP** app on your mobile.

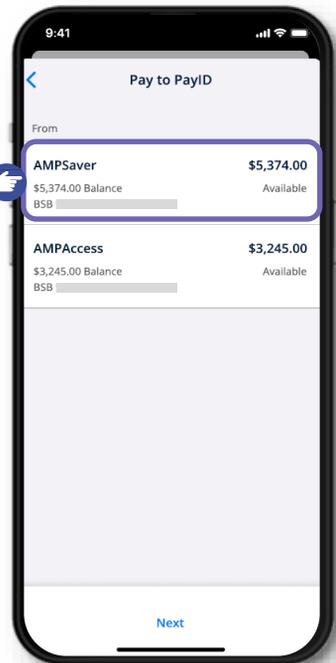

**2** Click **Pay** in the bottom menu.

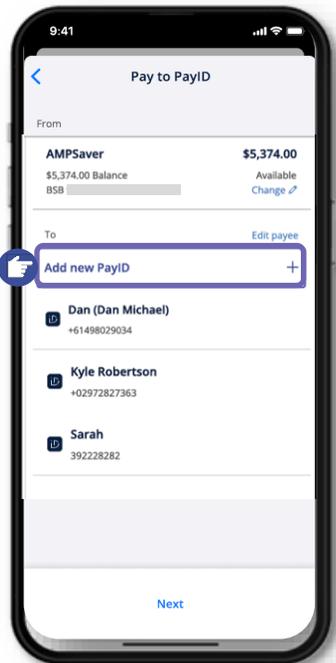

**3** Select **Pay to PayID** from the menu.

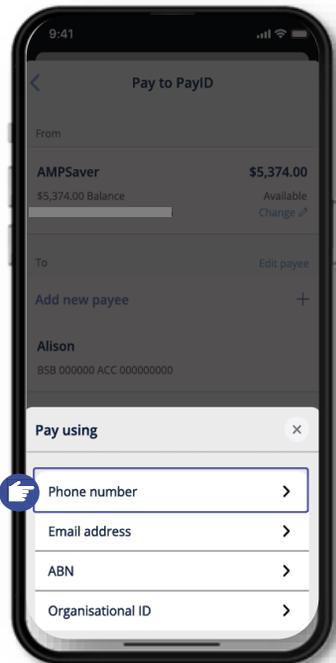

**4** Select the **Account** you would like to make a payment from.

**5** Click **Add new PayID**.

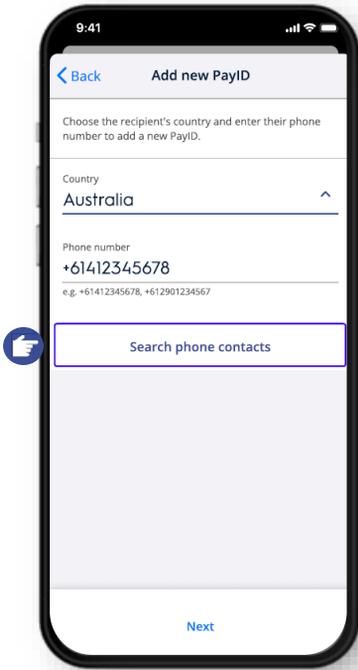

**6** Choose the **PayID type**, such as phone number.

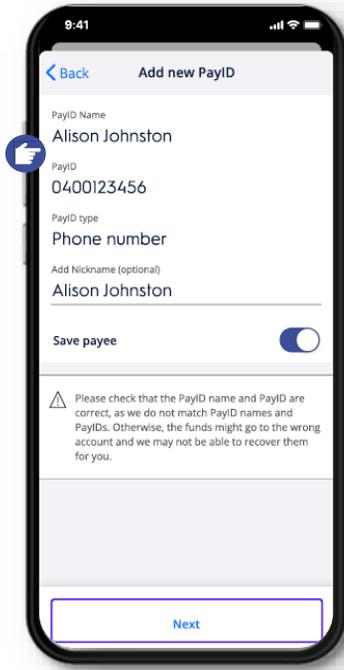

# How to send money to a PayID?

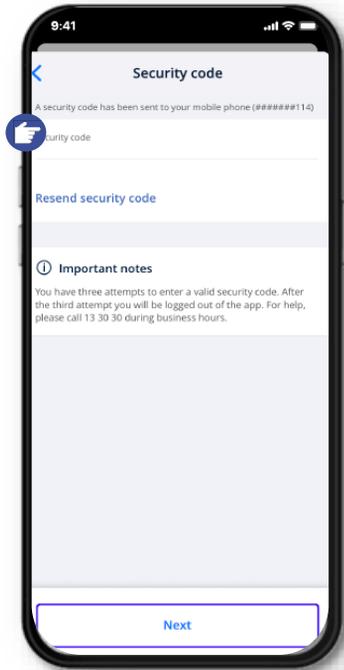

**7** Enter the **PayID details** (such as phone number)

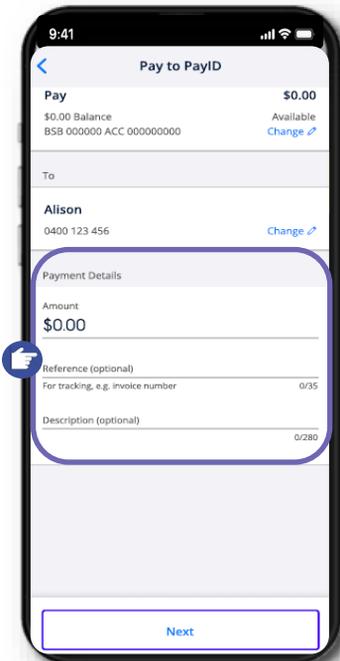

**8** Check that the PayID details are correct.

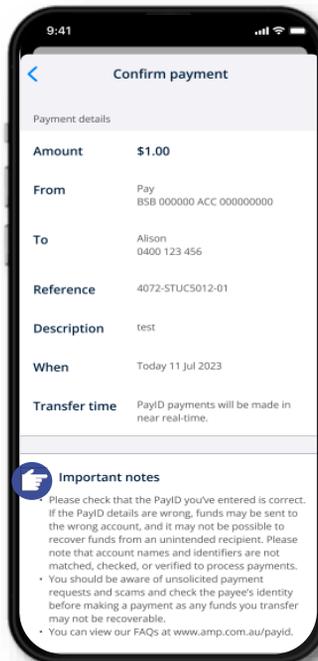

**9** Enter the **security code** shared via 2 Factor Authentication.

**10** Enter the **payment amount, reference or description** (if required).

**11** **Confirm your payment details** and take note of **important notes**.

**12** PayID payment is complete, and receipt displayed.
