1. About AMP Flexible Super

If you’re like most of us, you’ll want a super fund that’s easy to take with you. AMP Flexible Super is designed to provide you with comprehensive super benefits for your retirement and insurance for you and your family’s peace of mind.

Investments that grow with you

You can select from a range of investments, from basic low-cost options to leading edge investments, including a MySuper solution. Go to amp.com.au/flexiblesuper to view the product dashboard for AMP MySuper.

Insurance options you can tailor as your life and needs change

As your life changes, your insurance needs may differ over time. Our insurance cover lets you apply for more or less cover as you need it.

Connect your way with online and mobile access

With My AMP and our mobile apps you can keep an eye on your account and review your AMP investments whenever you want.

AMP Flexible Super is part of a super fund known as the Super Directions Fund (the fund) (ABN 78 421 957 449). N.M. Superannuation Proprietary Limited (NM Super) ABN 31 008 428 322 is the trustee of the fund and is referred to as trustee, we, us or our in this PDS. Information about the fund and the trustee, including its executive officers, can be found at amp.com.au/trusteedetails.

2. How super works

Super is, in part compulsory, and is an effective way to save for retirement with tax savings provided by the government. You can generally choose your own fund or simply use the fund your employer has set up for you. There are different types of contributions available to help you save for your retirement including Super Guarantee (SG), salary sacrifice and personal contributions. You may also be able to claim a tax deduction for personal contributions. There are limits on the amount you can contribute to super, known as contribution caps. Go to amp.com.au/growyoursuper for more information.

You can start partially accessing your super once you reach your preservation age by commencing a transition to retirement allocated pension. Once you reach preservation age and retire, or you meet another condition of release, you can generally access your entire account by either making withdrawals or commencing a retirement allocated pension. If you meet a condition of release, all partial and full withdrawals are tax-free once you turn 60. Go to amp.com.au/ttr to learn more, or talk to your financial adviser.

You should read the important information about how super works before making a decision. Go to the getting to know your AMP Flexible Super fact sheet at amp.com.au/flexiblesuper. The material relating to how super works may change between the time when you read this Statement and the day when you acquire the product.
3. Benefits of investing with AMP Flexible Super

AMP Flexible Super gives you flexibility with access to a range of features.

Investment choice

AMP Flexible Super caters for a wide variety of investment styles, with access to a MySuper option, as well as a range of multi-sector and single-sector investment options. Our Core investment level offers a low-cost simple approach. The Select investment level may suit you if you want more options. And our Choice investment level is ideal if you want to be more involved in your investments and take control.

Life stage strategies

As you get closer to retirement, you might want to take less risk. Our LifeStages and Lifecycle options mean you can sit back and let us make the adjustments for you. The LifeStages strategy is available in Select and Choice levels. The Lifecycle strategy is available in Core, Select and Choice levels. LifeStages and Lifecycle are only available in a super account.

AMP Retirement choice

Once you are in retirement, you can invest in the AMP Retirement Choice investment option which aims to pay you regular and consistent pension payments until your specific target age.

Insurance options to look after you and your family

Insurance cover helps to financially protect you and your family. Premiums are deducted from your super account, making it a convenient and possibly more tax-effective option for you.

Nominate your beneficiaries

You can nominate one or more of your dependants or your legal personal representative to receive your super and any insured death benefit. See the getting to know your AMP Flexible Super fact sheet for the beneficiary nominations available to you. If you have a retirement account, you can also nominate your spouse or de facto to automatically receive your pension when you die. This is known as a reversionary beneficiary nomination.

Flexible bonus

You and one immediate family member can link your accounts, which may help you save even more on administration fees.

Only pay for what you use

Our fee structure means you only pay for what you use. This means your AMP Flexible Super can be a simple, no-frills low-cost super account. Or it can be the super which offers you plenty of specialised investment choices plus comprehensive insurance with income protection. It’s completely up to you.

4. Risks of super

All investments have risks so here are a few things you need to know before investing:

- All markets go up and down, causing asset values to vary. The extent to which markets move up and down is called volatility. In general, asset classes with a higher potential return also have a higher level of risk
- There are no guarantees in investing. Every market and investment strategy carries different risks. The level of risk can vary depending on the assets that make up the strategy. You may lose some of your money at different points in time
- History has shown that investments with the best long-term returns, like shares and property, also show the most short-term volatility and risk
- Your returns may be less than inflation
- Past performance of an investment is no guide to the future performance and returns will vary
- Super and tax laws may change, and
- Your super savings and returns might still not be enough to give you the retirement you want.

How much risk?

How much risk you choose to take on will depend on:

- your age
- your investment timeframe
- how your other investments are going, and
- how comfortable you are with taking risk.

You should read the important information about the risks of investing before making a decision. Go to the getting to know your AMP Flexible Super and investing and your options fact sheets available at amp.com.au/flexiblesuper for further information.

The material relating to the risks of investing may change between the time when you read this Statement and the day when you acquire the product.

5. How we invest your money

When choosing your investment strategy, you should consider the likely investment returns, the risks involved and your investment timeframe.

You can choose from a wide range of investment options within each of these levels:

Core investment level

- A low-cost account.
- MySuper investment option and a cash option.
- Also features a small range of diversified investment options, each with a unique approach to investing, and
- Super members can choose up to three investment options and retirees can choose two.

Select investment level

- Features a range of diversified investment options designed to suit your approach, from the cautious to the aggressive investor, including Super Easy LifeStages (super members only) which is an investment strategy that automatically adjusts to safer, more defensive investments as you get closer to retirement.
- Choose up to five investment options, and
- Auto-rebalance option re-adjusts your portfolio every 3, 6 or 12 months.
Choice investment level

– Choose up to 15 investment options from a range of over 70 options from more than 10 fund managers, and
– Features balanced and diversified options, term deposits, single and multi-sector options, index options and socially responsible options, with different investment approaches.

Before deciding, take a look at the range of investments available under each investment level. Please see the investing and your options fact sheet at amp.com.au/flexiblesuper.

The trustee regularly reviews the investment options and may add new options, remove existing options or alter the options from time to time without prior notice.

Switching is easy

It’s easy to change your investment options as life changes. Login to My AMP at amp.com.au or via the My AMP app to review or switch your investments. You can do this any time and you won’t be charged any switching fees.

AMP MySuper investment option – a lifecycle solution

The AMP MySuper investment option takes the hard work out of deciding how to invest your super, by providing the simplicity of a single investment option tailored for your age group. During your younger years the investment strategy seeks higher returns through greater exposure to growth assets such as shares. As you approach retirement, the investment aim is to reduce risk and preserve capital, so the asset allocation mix shifts to more stable defensive assets. This option is suitable for members who do not want to actively choose an investment mix and who are seeking to grow their super.

SuperEasy Balanced

SuperEasy Balanced is one investment option available if you've retired. You will need to choose your investments when you open your retirement account.

Aim and strategy: To provide moderate to higher returns primarily from capital growth with some income over the long term by investing across the main asset classes, with higher exposure to growth assets. Exposure to individual asset classes will be attained through the use of index focussed investment managers.

6. Fees and costs

**DID YOU KNOW?**
Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

**TO FIND OUT MORE**
If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

This table shows fees and other costs that you may be charged for the AMP MySuper (super account only) and the Super Easy Balanced investment option. These fees and other costs may be deducted from your money, from the returns on your investment or from the assets of the superannuation fund as a whole. You can use the information in this table to compare the costs between different superannuation products.

The fees and other costs for choice investment options offered in this super product are set out in the getting to know your AMP Flexible Super and investing and your options fact sheets.

The transaction cost allowance (iii) is either deducted from, or added to, the assets of the investment option in arriving at the unit price. It may change on a regular basis and is subject to change without notice to you. When a change is made, the value of your investment in the investment option will either increase or decrease.

Deducted directly from your account.

Deducted directly from your account in advance at the beginning of each month.

The total indirect cost ratio includes performance based fees (ii) and other indirect costs (ii). These are deducted from the underlying assets of the investment option and reflected in the unit price. They are variable and may be more or less than the amounts shown.

(i) If your account balance for a product offered by the superannuation entity is less than $6,000 at 30 June, the total combined amount of administration fees, investment fees and indirect costs charged to you is capped at 3% (after the benefit of any tax deduction passed onto you) of the account balance. Any amount charged in excess of that cap will be refunded.

(ii) Refer to the additional explanation of fees and costs in the getting to know your AMP Flexible Super fact sheet for more information.

(iii) The ranges shown here are based on the latest information available at the date of this document. The transaction cost allowance for an investment option can change at any time and may exceed the maximum amount shown.

(iv) Costs are variable and may be more or less than the estimated amounts shown which are based on the known actual or estimated costs incurred for the last financial year. Past costs are not a reliable indicator of future costs.

For fee definitions and full details of the fees and costs that apply, take a look at your getting to know your AMP Flexible Super and investing and your options fact sheets at amp.com.au/flexiblesuper or talk to your financial adviser.

Changing the fees

We can change fees at any time without your consent. We’ll notify you at least 30 days before we increase fees. For more information about fee changes, refer to the getting to know your AMP Flexible Super fact sheet.

</tr>
</tbody>
</table>

(i) If you are a high income earner, you may be liable to pay an additional 15% tax on certain contributions. The Australian Tax Office (ATO) will notify you after the end of the financial year if this tax applies to you.
(ii) The annual concessional contributions cap is indexed. To assess your eligibility to make concessional contributions, you should check the current cap rules at ato.gov.au.
(iii) The annual non-concessional contributions cap is indexed. To assess your eligibility to make non-concessional contributions, check the current cap rules at ato.gov.au.

Contributions tax may be reduced by tax offsets and deductions (for items such as insurance premiums) which are available to the fund. Contributions tax is paid to the ATO monthly. We deduct the amounts from your account either at the time of contribution or quarterly, depending on the type of contribution or whether your account is closed. This frequency might change to monthly to match payments to the ATO. This is subject to the provision of your tax file number (TFN).

### 7. How super is taxed

Super offers tax benefits to encourage you to save for retirement. Your super is usually taxed:
- when adding to your super (ie a contribution or a rollover of an untaxed amount)
- earnings on your super, and
- when money is withdrawn from super.

Tax above the caps (excess contributions)

There are limits on the amount of contributions that you can make without incurring additional tax. These limits are called contribution caps. It’s your responsibility to ensure contributions to super are within your contributions caps as we are not able to monitor your overall position.

Tip: Keep an eye on contributions to all your super funds to avoid contributing above the caps. If you exceed your contributions caps additional tax will be payable.

Tax on earnings

Investment earnings on your AMP Flexible Super account with a transition to retirement restriction that is not in the retirement phase are taxed up to 15%. This tax is deducted before the investment return is declared.

---

1 Your transition to retirement allocated pension account will be in the retirement phase when you reach age 65 or notify us that you have retired after reaching preservation age, are permanently incapacitated or are suffering from a terminal medical condition.
Tax on withdrawals

How your benefit is taxed will depend on your age, how you take your benefit and the different tax components, some of which will be tax-free and some taxable.

A cap of $1.6 million (indexed) will apply on the total amount of superannuation that you can transfer to retirement pension phase accounts (where investment earnings continue to be tax exempt), known as the pension transfer balance cap.

The good news is there’s no tax on withdrawals paid directly to you (as a pension payment or lump sum) if you are aged 60 or over.

The amount of tax payable on the tax-free and taxable components are outlined below:

<table>
<thead>

The ability to obtain insurance cover is subject to the eligibility criteria, and certain conditions and exclusions, set out in the insurance for personal super fact sheet which you should read before deciding whether the insurance is appropriate.

Insurance for members

The amount of cover provided is shown in your welcome letter or insurance confirmation letter.

Please note: The following may affect your entitlement to insurance cover, please read the insurance for personal super fact sheet before deciding whether the insurance is appropriate:

– the level and type of insurance cover available
– the range of costs of insurance depending on a person’s circumstances
– eligibility for and cancellation of insurance cover, and
– insurance conditions and exclusions.

The material relating to insurance in your super may change between the time when you read this Statement and the day when you acquire the product.

Insurance premiums for members

There are costs associated with insurance cover in the form of insurance premiums.

The cost of your cover depends on: the amount and type of cover, age, gender, occupation, state of health, pastimes, smoking habits, the insurance premium rates applying to your plan, and any extra options you may want to add.

You can obtain an indicative quote from your financial adviser or by contacting us. If we accept your application, the cost of your cover will be shown in the welcome letter or if you apply for additional cover, the insurance confirmation letter we send you. Premiums will be deducted from your super account at the start of each month unless you cancel or decline your cover.

Please note: Large amounts of insurance cover may erode retirement income. Please consult your financial adviser for advice on what level of insurance cover is appropriate for your needs.

Tip: For an insurance quote, please contact us on 131 267.

Change of insurance cover

You may be able to change (increase or decrease) your insurance cover or apply for insurance cover if it wasn’t provided for you.

To apply for cover or to increase your existing cover, please contact us (see the enquiries and complaints section in this PDS for contact details) to obtain the applicable form. In most cases, you’ll need to provide details of your health.

If your application for insurance or additional insurance cover is accepted, a higher premium may be payable, or it may be subject to one or more exclusions. If additional cover is declined based on the health evidence, any insurance already provided will not be affected.

Cancelling your insurance cover

If you choose to cancel cover, you can do so by writing to us (see the enquiries and complaints section in this PDS for contact details). The effective date for cancellation of cover is the date we receive a fully complete request from you.

We suggest you read the PDS and consult a financial adviser before deciding to change or cancel your insurance cover.

Please note: Unless you cancel your insurance cover, the cost of your insurance cover (your insurance premium) will be deducted from your account at the beginning of each month.

9. How to open an account

You can open an AMP Flexible Super account online — it’s quick and easy. Just go to amp.com.au/flexiblesuper/howtoapply.

You can also apply in one of the following ways:
1. Speak to your financial adviser.
3. Call us on 131 267
   8.30am to 7.00pm Sydney time Monday to Friday

Cooling-off period

If you change your mind about the product, you can exercise your cooling-off rights by contacting us.

There is a limited time to do this, which is within 14 days of the earlier of:
– the date you receive our welcome letter, or
– five business days after the date shown on our welcome letter.

Please note: If you exercise any rights in relation to your super account, cooling-off rights will be waived. The amount we refund or transfer may be less than the amount invested.
